Research Interests

Active matter dynamics · Elastic Leidenfrost effect · Mechanics of moisture-driven hair frizz

Summary

Currently a graduate researcher at Ajou University. My research interests include active matter dynamics, the Elastic Leidenfrost effect, and the mechanics of moisture-driven hair frizz.

Publications

- **Boundary-driven active matter and stochastic rectification via Leidenfrost impulses**
  Minseong Cho, Yeonsu Jung, and Jonghyun Ha
  In preparation

Education

- **M.S. in Mechanical Engineering** — Sep 2025 – Present
  Ajou University, Suwon, South Korea
  - **Advisor:** Prof. Jonghyun Ha
- **B.S. in Mechanical Engineering** — Mar 2020 – Aug 2025
  Ajou University, Suwon, South Korea

Research Experience

- **Graduate Research Student** – Softlab, Ajou University — Sep 2025 – Present
  - **Mechanics of moisture-driven hair frizz**
    Centerline-based geometric analysis and simulation-assisted interpretation of strand morphology.
  - **Boundary-driven active matter in soft hydrogels**
    Quantitative analysis of Leidenfrost-induced dynamics in soft hydrogel systems.
  - **Methods:** image-based tracking, curvature analysis, and visualization scripts
  - **Advisor:** Prof. Jonghyun Ha, Dr. Yeonsu Jung
- **Undergraduate Research Student** – Softlab, Ajou University — Mar 2023 – Aug 2025
  - **Boundary-driven active matter in soft hydrogels**
    Image-based tracking and quantitative analysis of Leidenfrost-related soft-matter dynamics.
  - **Contributions:** figure preparation and presentation support.
  - **Advisor:** Prof. Jonghyun Ha, Dr. Yeonsu Jung

Conferences and Presentations

- **APS Division of Fluid Dynamics Meeting** — Nov 2025
  Houston, TX, USA
  - *Leidenfrost-induced active matter dynamics of spherical hydrogels*
- **Asian Congress of Fluid Mechanics** — Sep 2025
  Seoul, South Korea
  - *Leidenfrost-induced active matter dynamics of spherical hydrogels*
- **KSME Annual Conference** — Nov 2024
  Jeju, South Korea
  - *Explosive motion of spherical hydrogel via the Leidenfrost effect*

Awards & Honors

- **Dean's List** Spring 2024, Spring 2025
  Ajou University
  - Recognized for outstanding academic performance (top 5% of the department).
- **Capstone Design Competition** June 2025
  Ajou University
  - **2nd Place · KRW 1,000,000 prize**
  - **Project:** Compliant-mechanism-based knee assistive device for degenerative osteoarthritis prevention.
- **Gyeonggi-do Assistive Device Idea Competition** Nov 2025
  Gyeonggi Province Rehabilitation Engineering Service Support Center (South Korea)
  - **3rd Place · KRW 300,000 prize**
  - **Project:** Compliant-mechanism-based knee assistive device for older adults.
- **APS DFD Travel/Enabling Grant** 2025
  APS Division of Fluid Dynamics, American Physical Society
  - **US$750 travel cost reimbursement**
  - Travel support for participation in the APS Division of Fluid Dynamics Meeting.
- **Gallery of Fluid Motion** Apr 2026
  The Korean Society of Mechanical Engineers, Fluid Engineering Division
  - **Haecheon Choi GFM Award · KRW 400,000 prize**
  - **Title:** Explosive motion of spherical hydrogel via the Leidenfrost effect
  - **Authors: Minseong Cho**, Yeonsu Jung, Jonghyun Ha
